

The Blockhaven Server Sabotage

Grade 6 math · Percentages, Exponents, Order of operations, Multiplication, Division · Reading level grades 5-6

Detective: _____ Date: _____

Someone has grieved the grand castle monument of Blockhaven, filling the throne room with water blocks and stealing the community chest! As the server admin, you must track down the culprit before the next server reboot.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Griefer is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

To bribe the local villagers for info, we must divide our stack of emeralds equally. Find each villager's share to unlock the final witness report.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$63 \div 7 = \boxed{}$

$20 \div 10 = \boxed{}$

$110 \div 10 = \boxed{}$

$80 \div 10 = \boxed{}$

$8 \div 8 = \boxed{}$

$35 \div 5 = \boxed{}$

$4 \div 1 = \boxed{}$

$40 \div 8 = \boxed{}$

$66 \div 11 = \boxed{}$

$100 \div 10 = \boxed{}$

$24 \div 2 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain swooped down from the night sky, then saved themselves with a totem of undying.
2. The villain poured lava all over the wheat farm, then shrugged off the arrows with netherite armor.
3. The villain blew up the village bridge with tnt, then mined through the wall with a diamond pickaxe.
4. The villain blew up the village bridge with tnt, then shrugged off the arrows with netherite armor.
5. The villain teleported onto the castle roof, then drank a glowing fire resistance potion.
6. The villain shot a wither skull at the monument, then saved themselves with a totem of undying.
7. The villain poured lava all over the wheat farm, then drank a glowing fire resistance potion.
