

The Case of the Catnip Caper

Grade 4 math · Rounding, Addition, Subtraction, Multiplication, Division · Reading level grades 3-4

Detective: _____ Date: _____

The famous Golden Yarn Ball has vanished from the Whisker City Museum! A sneaky cat burglar slipped past the lasers. Detective, we need your help to crack the clues, solve the math puzzles, and find the culprit.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the cat burglar is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

We had to share the catnip toys equally among the guard dogs to keep them happy.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$16 \div 8 = \boxed{}$

$35 \div 7 = \boxed{}$

$36 \div 12 = \boxed{}$

$10 \div 10 = \boxed{}$

$45 \div 5 = \boxed{}$

$90 \div 9 = \boxed{}$

$120 \div 10 = \boxed{}$

$55 \div 5 = \boxed{}$

$72 \div 12 = \boxed{}$

$32 \div 8 = \boxed{}$

$21 \div 3 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain chews the catnip mouse, then spots the exits in the dark.
2. The villain pounces on the laser pointer, then leaps high into the air.
3. The villain rolls the yarn ball, then climbs up the curtains.
4. The villain bats the feather wand, then leaps high into the air.
5. The villain chews the catnip mouse, then leaps high into the air.
6. The villain chews the catnip mouse, then climbs up the curtains.
7. The villain rolls the yarn ball, then dashes along the high walls.
8. The villain bats the feather wand, then dashes along the high walls.
9. The villain pounces on the laser pointer, then dashes along the high walls.
10. The villain rolls the yarn ball, then leaps high into the air.
11. The villain bats the feather wand, then sneaks by with quiet paws.
12. The villain bats the feather wand, then spots the exits in the dark.
