

The Case of the Lost Golden Propeller

Grade 3 math · Multiplication, Rounding, Addition, Subtraction, Division · Reading level grades 3-4

Detective: _____ Date: _____

Someone took the famous Golden Propeller right off the trophy wall in the big hangar! The Propeller County Airfield is in a panic, and Chief Mechanic Barnaby needs your help to find the sneaky sky pirate before they fly away into the clouds!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the sky pirate is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1
Multiplication facts (1-12)

We need to count the rows of planes parked in the hangar. Let us find the total to get our first clue!

Solve each problem, then write its letter in every clue box that shows the same number.

CLUE 5**Division facts (1-12) - the last clue**

If we share the flight maps equally among the rescue teams, how many does each pilot get?

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$56 \div 7 = \boxed{}$

$48 \div 4 = \boxed{}$

$4 \div 1 = \boxed{}$

$12 \div 6 = \boxed{}$

$14 \div 2 = \boxed{}$

$15 \div 5 = \boxed{}$

$9 \div 9 = \boxed{}$

$35 \div 7 = \boxed{}$

$110 \div 11 = \boxed{}$

$54 \div 9 = \boxed{}$

$72 \div 8 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain buzzes the runway lights, then blowing a loud foghorn.
2. The villain buzzes the runway lights, then waving a white scarf.
3. The villain takes off in a steep climb, then leaving a trail of pink smoke.
4. The villain takes off in a steep climb, then blowing a loud foghorn.
5. The villain zooms past the control tower, then leaving a trail of pink smoke.
6. The villain swoops low over the cornfield, then waving a white scarf.
7. The villain zooms past the control tower, then waving a white scarf.
8. The villain takes off in a steep climb, then waving a white scarf.
9. The villain buzzes the runway lights, then leaving a trail of pink smoke.
10. The villain swoops low over the cornfield, then dropping paper airplanes.
11. The villain zooms past the control tower, then dropping paper airplanes.
12. The villain loops around the big hangar, then leaving a trail of pink smoke.
