Detective: _____ Date: _____

Just before the big encore, someone slipped into the instrument vault and swiped the legendary Golden Saxophone! The show cannot go on without it, and the arena is packed with ninety thousand waiting fans. It is up to you to crack the case, interview the touring crew, and save the concert!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Rogue Roadie is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Fractions of a number - the last clue**

The drummer divided a bin of custom guitar picks among the front row. Finding the fraction that remained gives us the final detail we need.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$1/6 \text{ of } 18 = \boxed{}$

$4/5 \text{ of } 10 = \boxed{}$

$1/3 \text{ of } 33 = \boxed{}$

$4/10 \text{ of } 25 = \boxed{}$

$6/10 \text{ of } 20 = \boxed{}$

$3/6 \text{ of } 8 = \boxed{}$

$1/10 \text{ of } 20 = \boxed{}$

$1/4 \text{ of } 4 = \boxed{}$

$2/10 \text{ of } 45 = \boxed{}$

$2/6 \text{ of } 15 = \boxed{}$

$2/8 \text{ of } 24 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain sweeps a violin arpeggio, then sings a wild scat chorus.
2. The villain sweeps a violin arpeggio, then dances across the wooden floor.
3. The villain pounds a heavy drum beat, then sings a wild scat chorus.
4. The villain thumps an electric bassline, then creates a huge stage echo.
