Grade 1 math · Place value, Addition, Subtraction, Skip counting, Missing addends · Reading level grades 1-2

Detective: _____ Date: _____

Oh no! Someone took the magic golden seed from the forest clinic. The animals are sick and need its healing glow. We must find the thief!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Rogue Herbalist is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Missing addends - the last clue**

The first aid box has space for ten seeds. We must find how many are missing.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$5 + \underline{\quad} = 9$

$7 + \underline{\quad} = 14$

$3 + \underline{\quad} = 9$

$5 + \underline{\quad} = 8$

$7 + \underline{\quad} = 9$

$8 + \underline{\quad} = 20$

$10 + \underline{\quad} = 21$

$10 + \underline{\quad} = 19$

$3 + \underline{\quad} = 11$

$9 + \underline{\quad} = 14$

$5 + \underline{\quad} = 15$

Step 2 - cross out the sentence with each answer:

1. The villain grows giant fast moss, then pins on a shiny pine badge.
2. The villain climbs the tallest pine, then puts on a sun visor.
3. The villain calls down a warm rain, then twirls a strong vine rope.
4. The villain climbs the tallest pine, then pins on a shiny pine badge.
