

The Case of the Missing Rainbow Prism

Grade 4 math · Rounding, Addition, Subtraction, Multiplication, Division · Reading level grades 3-4

Detective: _____ Date: _____

Someone has stolen the Rainbow Prism from the Keeper of the Prism in the Sparklewood Canopy! The beautiful trees are turning a dull grey. We must find the sneaky Gloom Mare before all the color fades away forever.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Gloom Mare is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1 Rounding

The magical radar screen only shows rounded numbers. Round the spark distance to the nearest ten to find where the suspect dropped their extra gear.

Solve each problem, then write its letter in every clue box that shows the same number.

CLUE 2 Addition

We found piles of glowing magic gems dropped in the meadow. Add all the gems together to see how many clue details were left behind.

Solve each problem, then write its letter in every clue box that shows the same number.

CLUE 5**Division facts (1-12) - the last clue**

We must share the sparkling sugar cubes equally among the forest sprites. Divide the treats to get the final clue about the villain.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$6 \div 2 = \boxed{}$

$24 \div 2 = \boxed{}$

$6 \div 1 = \boxed{}$

$10 \div 10 = \boxed{}$

$12 \div 6 = \boxed{}$

$36 \div 9 = \boxed{}$

$96 \div 12 = \boxed{}$

$55 \div 11 = \boxed{}$

$70 \div 10 = \boxed{}$

$99 \div 11 = \boxed{}$

$33 \div 3 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain fires a bright horn beam, then loses a crystal crown.
2. The villain blasts rainbow glitter, then rings a silver bell.
3. The villain creates a starry shield, then clatters away in golden shoes.
4. The villain fires a bright horn beam, then adjusts a jewel saddle.
5. The villain fires a bright horn beam, then shakes a pearl bridle.
6. The villain creates a starry shield, then adjusts a jewel saddle.
7. The villain bounces high on a cloud, then shakes a pearl bridle.
8. The villain creates a starry shield, then shakes a pearl bridle.
9. The villain bounces high on a cloud, then clatters away in golden shoes.
10. The villain fires a bright horn beam, then clatters away in golden shoes.
11. The villain bounces high on a cloud, then adjusts a jewel saddle.
12. The villain zooms on a rainbow path, then adjusts a jewel saddle.
