

The Case of the Starlight Sabotage

Grade 3 math · Place value, Addition, Multiplication, Skip counting, Division · Reading level grades 3-4

Detective: _____ Date: _____

Oh no! A mysterious rogue has messed up the star flight paths at Starlight Station. The Station Captain needs your help to crack the codes and catch the Cosmic Crasher before the rockets launch!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Cosmic Crasher is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 2

Space logs showed two different teams counting falling meteors. If we add their counts together, we get the code for the next locked locker!

Solve each problem, then write its letter in every clue box that shows the same number.

Diagram showing two rows of 10 boxes each. The top row has 5 boxes with values 298, 863, 391, 592, 952, 592, 392, 391, 699, 298. The bottom row has 5 boxes with values 588, 986, 298, 863, 298, 863, 391, 986, 624, 812. In both rows, the 8th box (298) is highlighted with an orange background and a large 'T'.

CLUE 5**Division facts (1-12) - the last clue**

We found a bag of space crystals to share among the crew. If we divide them equally among our three teams, the leftover number gives us the final secret!

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$6 \div 2 = \boxed{}$

$15 \div 3 = \boxed{}$

$9 \div 1 = \boxed{}$

$22 \div 11 = \boxed{}$

$36 \div 6 = \boxed{}$

$100 \div 10 = \boxed{}$

$36 \div 3 = \boxed{}$

$49 \div 7 = \boxed{}$

$72 \div 9 = \boxed{}$

$1 \div 1 = \boxed{}$

$8 \div 2 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain floated through the airlock, then zipped toward the asteroid belt.
2. The villain sneaked into the cargo bay, then hid behind the giant solar panel.
3. The villain floated through the airlock, then tangled up the antenna wires.
4. The villain zapped the main power box, then zipped toward the asteroid belt.
5. The villain sneaked into the cargo bay, then stole the crystal fuel cell.
6. The villain scrambled the rocket controls, then fled down the escape hatch.
7. The villain zapped the main power box, then hid behind the giant solar panel.
8. The villain scrambled the rocket controls, then zipped toward the asteroid belt.
9. The villain unlocked the gravity generator, then tangled up the antenna wires.
10. The villain sneaked into the cargo bay, then zipped toward the asteroid belt.
11. The villain scrambled the rocket controls, then tangled up the antenna wires.
12. The villain unlocked the gravity generator, then zipped toward the asteroid belt.
