

The Golden Bone Heist

Grade 4 math · Place value, Addition, Rounding, Subtraction, Division · Reading level grades 3-4

Detective: _____ **Date:** _____

The legendary Golden Bone Trophy has been swiped from the park clubhouse. A sneaky pup did it, leaving behind a trail of chew toys and paw prints. Ranger Pete needs your help to sniff out the suspect before the annual dog show begins.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Treat Thief is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1

To open the locked suspect gate, we must find the digit in the tens place of the dog house security code.

Solve each problem, then write its letter in every clue box that shows the same number.

A number line from 0 to 10,000 with various numbers marked in boxes. Some boxes are orange and contain the letter 'T', indicating thousands. The numbers marked are 900, 800, 200, 6000, 70, 30, 30, 40, 70, 20, 3000, 7000, 200, 50, 20, 7000, 900, 400, 30, 40, 80, 300, 70, 900, 800, 40, 400, 30, 9000, 50, 800, 1000, 200, 40, and 700.

CLUE 5**Division facts (1-12) - the last clue**

We divide a pack of reward biscuits equally among the helpful park pups to keep them searching.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$100 \div 10 = \square$

$144 \div 12 = \square$

$10 \div 2 = \square$

$18 \div 3 = \square$

$7 \div 7 = \square$

$77 \div 11 = \square$

$24 \div 3 = \square$

$66 \div 6 = \square$

$48 \div 12 = \square$

$18 \div 6 = \square$

$14 \div 7 = \square$

Step 2 - cross out the sentence with each answer:

1. The villain lets out a loud sonic bark, then chews on a rubber duck.
2. The villain creeps quietly through the grass, then chews on a rubber duck.
3. The villain leaps over the clubhouse fence, then catches a flying frisbee.
4. The villain leaps over the clubhouse fence, then chews on a rubber duck.
5. The villain sniffs out the hidden golden prize, then catches a flying frisbee.
6. The villain digs a deep hole under the wall, then squeaks a rubber ball.
7. The villain digs a deep hole under the wall, then hugs a plush bear.
8. The villain lets out a loud sonic bark, then catches a flying frisbee.
9. The villain creeps quietly through the grass, then tugs a rope knot.
10. The villain lets out a loud sonic bark, then squeaks a rubber ball.
11. The villain lets out a loud sonic bark, then tugs a rope knot.
12. The villain leaps over the clubhouse fence, then tugs a rope knot.
