

The Great Block Griefer

Grade 6 math · Percentages, Exponents, Order of operations, Multiplication, Division · Reading level grades 1-2

Detective: _____ Date: _____

Someone has stolen the Golden Apple from the spawn castle! The blocks are messed up and there is water flowing everywhere. We must find the Griefer before they delete the entire world map!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Griefer is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

We found some shiny diamonds. We must share them equally with the village. Let us divide them up.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$60 \div 6 = \boxed{}$

$84 \div 7 = \boxed{}$

$8 \div 8 = \boxed{}$

$121 \div 11 = \boxed{}$

$32 \div 4 = \boxed{}$

$40 \div 10 = \boxed{}$

$84 \div 12 = \boxed{}$

$72 \div 8 = \boxed{}$

$9 \div 3 = \boxed{}$

$40 \div 8 = \boxed{}$

$24 \div 4 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain digs a deep tunnel in seconds, then eats a glowing golden apple.
2. The villain flies high in creative mode, then eats a glowing golden apple.
3. The villain digs a deep tunnel in seconds, then throws a shiny purple ender pearl.
4. The villain blows up a stone wall with tnt, then breaks obsidian with a netherite pick.
5. The villain swims through a pool of hot lava, then swings a shiny diamond sword.
6. The villain digs a deep tunnel in seconds, then breaks obsidian with a netherite pick.
7. The villain teleports behind the dark trees, then places a glowing redstone torch.
8. The villain blows up a stone wall with tnt, then places a glowing redstone torch.
9. The villain swims through a pool of hot lava, then eats a glowing golden apple.
10. The villain flies high in creative mode, then throws a shiny purple ender pearl.
11. The villain blows up a stone wall with tnt, then eats a glowing golden apple.
12. The villain blows up a stone wall with tnt, then throws a shiny purple ender pearl.
