

The Great Catnip Caper

Grade 4 math · Multiplication, Rounding, Addition, Subtraction, Division · Reading level grades 3-4

Detective: _____ Date: _____

A sneaky cat burglar has swiped the Golden Catnip Mouse right out of its glass case! Chief Detective Whiskers needs your help to crack the codes and catch the culprit before they escape the city.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the cat burglar is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

We found a pile of fish treats to share equally among the detective pups. Divide them up to unlock the final clue!

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$100 \div 10 = \boxed{}$

$45 \div 9 = \boxed{}$

$48 \div 8 = \boxed{}$

$72 \div 6 = \boxed{}$

$99 \div 11 = \boxed{}$

$49 \div 7 = \boxed{}$

$20 \div 10 = \boxed{}$

$99 \div 9 = \boxed{}$

$24 \div 3 = \boxed{}$

$48 \div 12 = \boxed{}$

$15 \div 5 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain shakes the windows with a super purr, then distracts the museum drones with a laser pointer.
2. The villain swipes the lock open with a quick claw, then tangles up the guard dogs with a yarn throw.
3. The villain navigates the dark museum using night vision, then distracts the museum drones with a laser pointer.
4. The villain shakes the windows with a super purr, then tricks the museum guards with a cardboard box trap.
5. The villain makes a giant high jump over the laser beams, then tangles up the guard dogs with a yarn throw.
6. The villain navigates the dark museum using night vision, then tricks the museum guards with a cardboard box trap.
7. The villain navigates the dark museum using night vision, then makes a messy escape using a milk splash.
8. The villain swipes the lock open with a quick claw, then confuses the security guards with catnip spray.
9. The villain slips through the halls with a silent sneak, then makes a messy escape using a milk splash.
10. The villain slips through the halls with a silent sneak, then tangles up the guard dogs with a yarn throw.
11. The villain swipes the lock open with a quick claw, then distracts the museum drones with a laser pointer.
12. The villain slips through the halls with a silent sneak, then tricks the museum guards with a cardboard box trap.
