Grade 3 math · Rounding, Addition, Subtraction, Multiplication, Division · Reading level grades 3-4

Detective: _____ Date: _____

A sneaky thief has snatched the priceless Golden Catnip Fossil from the Grand Dig Site! Chief Inspector Whiskers needs your help to scan the tracks, solve the clues, and catch the sneaky culprit.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Rogue Dino-Cat is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

A pack of tiny raptors found some clues but they will only trade if we share our treats equally among them.
Divide the treats!

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$36 \div 3 = \boxed{}$

$24 \div 3 = \boxed{}$

$8 \div 8 = \boxed{}$

$6 \div 1 = \boxed{}$

$30 \div 3 = \boxed{}$

$33 \div 3 = \boxed{}$

$108 \div 12 = \boxed{}$

$55 \div 11 = \boxed{}$

$84 \div 12 = \boxed{}$

$32 \div 8 = \boxed{}$

$36 \div 12 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain stomped through the mud in a giant T-Rex suit, then climbed the walls with sticky paw-gloves.
2. The villain pounced over the fence using raptor claws, then tossed a yarn ball smoke bomb to escape.
3. The villain rode a heavy Tricera-couch through the gate, then zipped away using a fish-bone grappling hook.
4. The villain swung a spiky stego-tail to smash the glass case, then tossed a yarn ball smoke bomb to escape.
5. The villain stomped through the mud in a giant T-Rex suit, then tossed a yarn ball smoke bomb to escape.
6. The villain stomped through the mud in a giant T-Rex suit, then sent a squeaky mouse drone to map the exit.
7. The villain stomped through the mud in a giant T-Rex suit, then shined a catnip laser pointer to distract the guards.
8. The villain glided down from the canopy on ptera-purr wings, then climbed the walls with sticky paw-gloves.
9. The villain pounced over the fence using raptor claws, then climbed the walls with sticky paw-gloves.
10. The villain stomped through the mud in a giant T-Rex suit, then zipped away using a fish-bone grappling hook.
11. The villain pounced over the fence using raptor claws, then shined a catnip laser pointer to distract the guards.
12. The villain swung a spiky stego-tail to smash the glass case, then climbed the walls with sticky paw-gloves.
