Detective: _____ **Date:** _____

The golden championship whistle has been swiped right before the tournament! A rogue player has disrupted the locker rooms and scrambled the game plan. We need to solve the sports mysteries and find the thief before kickoff!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the trophy thief is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

We need to pack the sports drinks into crates. Divide the total bottles equally to find how many go in each crate and unlock the final clue.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$77 \div 7 = \boxed{}$

$12 \div 2 = \boxed{}$

$44 \div 11 = \boxed{}$

$110 \div 11 = \boxed{}$

$77 \div 11 = \boxed{}$

$3 \div 1 = \boxed{}$

$2 \div 1 = \boxed{}$

$35 \div 7 = \boxed{}$

$90 \div 10 = \boxed{}$

$10 \div 10 = \boxed{}$

$24 \div 2 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain pulled off a flashy rainbow flick, then fled the court in shiny shin guards.
2. The villain executed a flawless bicycle kick, then dashed off in gold high-tops.
3. The villain landed a thunderous slam dunk, then leaped away wearing striped socks.
