Grade 1 math · Place value, Addition, Subtraction, Skip counting, Missing addends · Reading level grades 1-2

Detective: _____ **Date:** _____

Oh no! The golden trophy is missing from the gymnastics gym! The Cheetah Bandit ran off with it. Can you help us find who did it?

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Cheetah Bandit is _____

Possible suspects

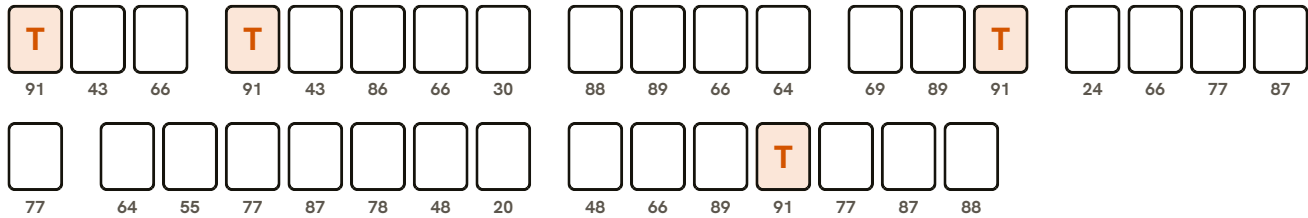

Cross off a row as each clue rules it out. The one left at the end is the culprit.

The team wants ten gold trophies. They only have six so far. Find the missing number to unlock the last clue.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$9 + \underline{\quad} = 19$

$3 + \underline{\quad} = 8$

$3 + \underline{\quad} = 14$

$8 + \underline{\quad} = 12$

$6 + \underline{\quad} = 12$

$8 + \underline{\quad} = 15$

$4 + \underline{\quad} = 16$

Step 2 - cross out the sentence with each answer:

1. The villain swings on the high bar, then twirls a spotted ribbon.
2. The villain swings on the high bar, then dashes off in speed shoes.
