

The Great Cookie Jar Caper

Grade 3 math · Place value, Addition, Subtraction, Skip counting, Division · Reading level grades 3-4

Detective: _____ **Date:** _____

Oh no! The grand prize cookie jar is empty, and there are crumbs leading out the bakery door! The Head Baker needs your help to track down the Crumb Bandit before the town festival tonight.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Crumb Bandit is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1 Place value

The digital lock on the vault is blinking. To find the secret code, we need to look closely at the digit in the tens place.

Solve each problem, then write its letter in every clue box that shows the same number.

CLUE 2 Addition

The thief dropped several small bags of sugar. Let us add up all the bags to find out how heavy the thief's backpack was.

Solve each problem, then write its letter in every clue box that shows the same number.

CLUE 5**Division facts (1-12) - the last clue**

We have a tray of frosting tubes to share. If we divide them equally among our helper puppies, we will decode the final message.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$5 \div 1 = \boxed{}$

$48 \div 8 = \boxed{}$

$44 \div 4 = \boxed{}$

$48 \div 12 = \boxed{}$

$18 \div 6 = \boxed{}$

$100 \div 10 = \boxed{}$

$10 \div 5 = \boxed{}$

$56 \div 8 = \boxed{}$

$24 \div 3 = \boxed{}$

$60 \div 5 = \boxed{}$

$54 \div 6 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain climbs the cooling racks, then sprays white powder with a flour blaster.
2. The villain swipes the mixing bowls, then snatches the treats with cookie tongs.
3. The villain swipes the mixing bowls, then finds the best chips with a choco detector.
4. The villain climbs the cooling racks, then coats the floor with a sugar sprayer.
5. The villain unlocks the giant oven, then coats the floor with a sugar sprayer.
6. The villain climbs the cooling racks, then snatches the treats with cookie tongs.
7. The villain unlocks the giant oven, then finds the best chips with a choco detector.
8. The villain unlocks the giant oven, then snatches the treats with cookie tongs.
9. The villain climbs the cooling racks, then sweeps up the evidence with a crumb brush.
10. The villain sneaks under the flour sack, then finds the best chips with a choco detector.
11. The villain sneaks under the flour sack, then coats the floor with a sugar sprayer.
12. The villain creeps through the dough room, then sprays white powder with a flour blaster.
