

The Great Diagnostic Glitch

Grade 5 math · Multiplication, Rounding, Place value, Skip counting, Division · Reading level grades 5-6

Detective: _____ **Date:** _____

Someone has logged into the teacher dashboard and scrambled the learning pathways right before the Friday Diagnostic! We must identify the Glitch Avatar and restore our study streaks before the lab timer runs out.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Glitch Avatar is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

The lab teacher wants to divide the leftover scratch paper packs equally among the active study group tables.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$88 \div 8 = \boxed{}$

$66 \div 11 = \boxed{}$

$5 \div 1 = \boxed{}$

$8 \div 2 = \boxed{}$

$16 \div 8 = \boxed{}$

$96 \div 12 = \boxed{}$

$50 \div 5 = \boxed{}$

$6 \div 6 = \boxed{}$

$35 \div 5 = \boxed{}$

$72 \div 6 = \boxed{}$

$72 \div 8 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain steals the streak tracker, then logs out of the system.
2. The villain hacks the diagnostic database, then reboots the computer lab.
3. The villain freezes the lesson pathway, then reboots the computer lab.
4. The villain freezes the lesson pathway, then deletes the student coins.
5. The villain hacks the diagnostic database, then locks the avatar customizer.
6. The villain freezes the lesson pathway, then locks the avatar customizer.
7. The villain hacks the diagnostic database, then logs out of the system.
8. The villain steals the streak tracker, then mutes the audio guide.
9. The villain jams the reward shop, then mutes the audio guide.
10. The villain freezes the lesson pathway, then logs out of the system.
11. The villain jams the reward shop, then logs out of the system.
12. The villain skips the tutorial video, then deletes the student coins.
