Grade 1 math · Addition, Place value, Subtraction, Skip counting, Missing addends · Reading level grades 1-2

Detective: _____ Date: _____

The golden championship trophy is missing! Someone took it right before the final game. We must search the field and find the dinosaur who took it.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the sneaky striker is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

The gear rack holds eight shin guards. We only see five. How many more do we need to make eight?

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$4 + \underline{\quad} = 10$

$2 + \underline{\quad} = 4$

$3 + \underline{\quad} = 11$

$6 + \underline{\quad} = 7$

$7 + \underline{\quad} = 14$

$9 + \underline{\quad} = 13$

$7 + \underline{\quad} = 16$

$1 + \underline{\quad} = 4$

$2 + \underline{\quad} = 14$

$9 + \underline{\quad} = 19$

$1 + \underline{\quad} = 12$

Step 2 - cross out the sentence with each answer:

1. The villain did a massive tail kick, then tipped a fancy visor.
2. The villain did a massive tail kick, then showed off some golden gloves.
3. The villain leaped for a wing save, then flew past with a sparkly cape.
4. The villain made a powerful head butt, then left a trail of muddy cleats.
5. The villain leaped for a wing save, then flashed a bright neon jersey.
6. The villain shook the ground with a mega stomp, then left a trail of muddy cleats.
7. The villain made a powerful head butt, then showed off some golden gloves.
