Grade 6 math · Percentages, Exponents, Order of operations, Multiplication, Division · Reading level grades 3-4

Detective: _____ Date: _____

Someone broke into the grand museum on the server and stole the legendary Golden Apple! The server admin needs your help to catch the grieving phantom before they log off.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the grieving phantom is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.
