CLUE 5**Missing addends - the last clue**

We knew the balloon ship needed ten sandbags to stay level, but only seven were left. Finding the missing amount pointed us right to the bandit!

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$6 + \underline{\quad} = 9$

$28 + \underline{\quad} = 29$

$2 + \underline{\quad} = 10$

$12 + \underline{\quad} = 14$

$12 + \underline{\quad} = 24$

$28 + \underline{\quad} = 38$

$4 + \underline{\quad} = 13$

$6 + \underline{\quad} = 13$

$20 + \underline{\quad} = 26$

$37 + \underline{\quad} = 42$

$21 + \underline{\quad} = 25$

Step 2 - cross out the sentence with each answer:

1. The villain blends into the mist, then fires a rope into the clouds.
2. The villain zooms past the wind turbines, then tosses a fake balloon.
3. The villain zooms past the wind turbines, then tracks the wind currents.
4. The villain zooms past the wind turbines, then drops a screen of fog.
5. The villain blasts into the sky, then drops a screen of fog.
6. The villain blasts into the sky, then tracks the wind currents.
7. The villain blends into the mist, then tracks the wind currents.
8. The villain blasts into the sky, then calls a friendly sky-whale.
9. The villain leaps off the wooden dock, then drops a screen of fog.
10. The villain blends into the mist, then calls a friendly sky-whale.
11. The villain zooms past the wind turbines, then fires a rope into the clouds.
12. The villain zooms past the wind turbines, then calls a friendly sky-whale.
