

The Great Spawn Egg Heist

Grade 3 math · Skip counting, Word problems, Multiplication, Addition, Division · Reading level grades 3-4

Detective: _____ Date: _____

Someone snuck into the central spawn town and swiped the legendary Dragon Egg! The server build team is in a panic. We need to follow the pixelated clues and find the block thief before they log off for good!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the block thief is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.
