

The Mystery of the Griefed Beacon

Grade 4 math · Addition, Subtraction, Multiplication, Rounding, Division · Reading level grades 5-6

Detective: _____ Date: _____

The community spawn castle has been griefed! The legendary Beacon of Haste is gone, leaving a trail of broken blocks and rogue redstone dust. The Server Admin needs your help to track down the suspect before they ruin the entire world spawn.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Griefer is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1 Addition

The server admins started counting the broken blocks around the spawn castle. We tally up the ruined obsidian and deepslate blocks to find our first clue.

CLUE 3
Multiplication facts (1-12)

We discovered a hidden outpost with columns of double chests. By multiplying the rows of chests by the slots inside each one, we unlocked the secret safe.

CLUE 5**Division facts (1-12) - the last clue**

Finally, we found a pile of stolen diamonds in a hopper. Dividing the loot equally among the active server guards reveals the last clue about the thief.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$4 \div 2 = \boxed{}$

$3 \div 3 = \boxed{}$

$49 \div 7 = \boxed{}$

$3 \div 1 = \boxed{}$

$70 \div 7 = \boxed{}$

$12 \div 3 = \boxed{}$

$84 \div 7 = \boxed{}$

$60 \div 12 = \boxed{}$

$56 \div 7 = \boxed{}$

$132 \div 12 = \boxed{}$

$36 \div 6 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain soars high with rockets, then saves themselves with a totem.
2. The villain mines deep obsidian walls, then shoots endless arrows from a bow.
3. The villain rides a roaring ravager, then teleports away with an ender pearl.
4. The villain activates a piston trap, then teleports away with an ender pearl.
5. The villain soars high with rockets, then shoots endless arrows from a bow.
6. The villain rides a roaring ravager, then saves themselves with a totem.
7. The villain rides a roaring ravager, then escapes using a riptide trident.
8. The villain mines deep obsidian walls, then saves themselves with a totem.
9. The villain rides a roaring ravager, then shoots endless arrows from a bow.
10. The villain mines deep obsidian walls, then ignites the ground with a fire sword.
11. The villain soars high with rockets, then escapes using a riptide trident.
12. The villain activates a piston trap, then saves themselves with a totem.
