

The Mystery of the Missing Netherite

Grade 2 math · Place value, Addition, Subtraction, Skip counting, Missing addends · Reading level grades 5-6

Detective: _____ **Date:** _____

A sneaky Griefer broke into the spawn temple and snatched the legendary Diamond Pickaxe right out of the Server Admin's secure chest! We must search the blocks, scan the coordinate maps, and find the culprit before the server gets flooded with lava.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Griefer is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1

An observer block tracked the Griefer's navigation system but the coordinate signal scrambled. To decode the security digits, we must analyze the ones, tens, and hundreds places.

Solve each problem, then write its letter in every clue box that shows the same number.

Two rows of 15 empty boxes each. The first row has three boxes containing the letter 'T' at positions 1, 14, and 15. The second row has three boxes containing the letter 'T' at positions 5, 9, and 13. Numbers are placed below each box in the first row, and below each box in the second row.

CLUE 2 Addition

The guard iron golem gathered all the discarded building materials left at the crime scene. Tallying up the blocks of cobblestone and wooden planks reveals a crucial clue.

Subtraction

A skeleton archer shot arrows at the fleeing suspect, knocking several items out of their inventory pockets. Subtracting the lost emeralds from the starting amount points us to the next lead.

CLUE 5**Missing addends - the last clue**

To open the server vault door, we have to load the item frame with the exact amount of fuel needed for the furnace. Finding the missing value unlocks the last clue.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$2 + \underline{\quad} = 12$

$1 + \underline{\quad} = 2$

$1 + \underline{\quad} = 6$

$3 + \underline{\quad} = 11$

$5 + \underline{\quad} = 17$

$5 + \underline{\quad} = 8$

$6 + \underline{\quad} = 15$

$10 + \underline{\quad} = 17$

$2 + \underline{\quad} = 4$

$2 + \underline{\quad} = 8$

$10 + \underline{\quad} = 21$

Step 2 - cross out the sentence with each answer:

1. The villain drank a potion of invisibility to vanish, then then summoned an iron golem to distract the guard.
2. The villain lit a block of tnt near the wall, then then whistled for a pack of tamed wolves.
3. The villain drank a potion of invisibility to vanish, then then whistled for a pack of tamed wolves.
4. The villain glided down silently from a high cliff using elytra, then then quickly enchanted their armor at the table.
5. The villain lit a block of tnt near the wall, then then summoned an iron golem to distract the guard.
6. The villain lit a block of tnt near the wall, then then smelted netherite ingots in a blast furnace.
7. The villain lit a block of tnt near the wall, then then splashed a brewing stand with poison potions.
8. The villain threw an ender pearl to bypass the fence, then then summoned an iron golem to distract the guard.
9. The villain lit a block of tnt near the wall, then then quickly enchanted their armor at the table.
10. The villain glided down silently from a high cliff using elytra, then then summoned an iron golem to distract the guard.
11. The villain flew over the obsidian walls in creative mode, then then whistled for a pack of tamed wolves.
12. The villain drank a potion of invisibility to vanish, then then quickly enchanted their armor at the table.
