Detective: _____ **Date:** _____

Someone has snuck into the potion dungeons and mixed up all the sleeping draughts with giggling juice! The potions master is stuck laughing. We must find the rogue wizard who did this!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!
