

The Redstone Heist

Grade 2 math · Place value, Addition, Subtraction, Skip counting, Missing addends · Reading level grades 5-6

Detective: _____ **Date:** _____

The server's central lobby has been grieved! A mysterious player breached the spawn protection, leaving a trail of bedrock and wild redstone contraptions. As the Lead Moderator, you must follow the clues left in the block data to identify the griefing thief before the server crashes!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Griefing Thief is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1

Solve each problem, then write its letter in every clue box that shows the same number.

A number line from 0 to 100. The line is divided into 10 equal segments, each representing 10 units. Each segment contains a box for the tens digit and a box for the ones digit. The numbers 73, 94, 46, 25, 85, 32, 46, 42, 46, 85, 60, 21, 46, 38, 71, 21, and 73 are written below the boxes. The boxes for 73 and 94 are highlighted in orange.

Tens	Ones	Number
7	3	73
9	4	94
4	6	46
2	5	25
8	5	85
3	2	32
4	6	46
4	2	42

2	1	21
7	3	73

A diagram showing a box with an arrow pointing to a box containing the letter S.

A diagram consisting of a rectangular box on the left, followed by a right-pointing arrow, and then another rectangular box on the right containing the letter 'R'.

A diagram showing a mapping from an empty box to a box labeled 'G'. An arrow points from an empty box on the left to a box containing the letter 'G' on the right.

A diagram consisting of a rectangular box on the left, followed by a right-pointing arrow, and then a square box on the right containing the letter 'A'.

A diagram consisting of a rectangular box on the left, followed by a right-pointing arrow, and then another rectangular box on the right containing the letter 'B'.

A diagram showing a box with an arrow pointing to a box labeled 'E'.

A diagram illustrating a transformation. On the left is a simple rectangular box. An arrow points from this box to another rectangular box on the right. This second box contains the letter 'L'.

A diagram showing a box with an arrow pointing to a box labeled K.

A diagram illustrating a transformation. On the left is a simple rectangular box. An arrow points from this box to a second box on the right. The second box is identical in shape but contains a single, bold, black capital letter 'I' in the center.

A diagram illustrating a transformation. On the left is a simple rectangular box. An arrow points from this box to a second box on the right. The second box contains the letter 'U'.

CLUE 5**Missing addends - the last clue**

A ruined nether portal stands half built. Find the missing amount of obsidian blocks needed to light the gateway.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$2 + \underline{\quad} = 5$

$4 + \underline{\quad} = 5$

$2 + \underline{\quad} = 9$

$10 + \underline{\quad} = 20$

$3 + \underline{\quad} = 15$

$10 + \underline{\quad} = 19$

$7 + \underline{\quad} = 18$

$3 + \underline{\quad} = 5$

$10 + \underline{\quad} = 15$

$4 + \underline{\quad} = 10$

$8 + \underline{\quad} = 16$

Step 2 - cross out the sentence with each answer:

1. The villain soars over the build height with elytra wings, then then bounces away on slime blocks.
2. The villain teleports instantly using ender pearls, then then blinds the lobby guards with glowstone dust.
3. The villain rewires the spawn gates with a redstone wrench, then then puts out any defensive fires with a water bucket.
4. The villain rewires the spawn gates with a redstone wrench, then then blinds the lobby guards with glowstone dust.
5. The villain blasts a tunnel with a netherite pickaxe, then then propels upward using firework rockets.
6. The villain soars over the build height with elytra wings, then then blinds the lobby guards with glowstone dust.
7. The villain soars over the build height with elytra wings, then then puts out any defensive fires with a water bucket.
8. The villain blasts a tunnel with a netherite pickaxe, then then leaves a hot path of magma blocks.
9. The villain teleports instantly using ender pearls, then then propels upward using firework rockets.
10. The villain blasts a tunnel with a netherite pickaxe, then then puts out any defensive fires with a water bucket.
11. The villain rewires the spawn gates with a redstone wrench, then then bounces away on slime blocks.
12. The villain teleports instantly using ender pearls, then then puts out any defensive fires with a water bucket.
