Grade 7 math · Addition, Subtraction, Multiplication, Integers, Division · Reading level grades 1-2

Detective: _____ Date: _____

Welcome to the Agent Treehouse. Someone took the Golden Binoculars! The Head Trainer needs your help to find the rogue agent. Look for clues to solve this mystery. Use your spy math to find the target. Good luck, agent!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the rogue agent is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

We have clues to share. Divide the clue cards among the team members.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$30 \div 3 = \boxed{}$

$8 \div 8 = \boxed{}$

$30 \div 10 = \boxed{}$

$108 \div 12 = \boxed{}$

$48 \div 4 = \boxed{}$

$24 \div 6 = \boxed{}$

$110 \div 10 = \boxed{}$

$10 \div 5 = \boxed{}$

$12 \div 2 = \boxed{}$

$10 \div 2 = \boxed{}$

$7 \div 1 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain turns on the night goggles, then climbs the tall oak tree.
2. The villain uses the spy camera, then slides down the long zip line.
3. The villain activates the jet shoes, then opens the secret safe.
4. The villain fires the laser pen, then sneaks past the motion sensors.
5. The villain turns on the night goggles, then sneaks past the motion sensors.
6. The villain uses the spy camera, then climbs the tall oak tree.
7. The villain fires the laser pen, then opens the secret safe.
8. The villain throws the grappling hook, then opens the secret safe.
9. The villain throws the grappling hook, then cracks the training code.
10. The villain turns on the night goggles, then slides down the long zip line.
11. The villain fires the laser pen, then climbs the tall oak tree.
12. The villain throws the grappling hook, then climbs the tall oak tree.
