Grade 3 math · Multiplication, Subtraction, Addition, Place value, Missing addends · Reading level grades 3-4

Detective: _____ Date: _____

The Golden Compass has been stolen from the Spy Island Camp vault! The camp director needs your help. Solve the puzzles, gather the clues, and help the junior detectives find the rogue agent!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the rogue agent is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 1

Multiplication facts (1-12)

We find a stash of gear boxes lined up in neat rows. To count them all quickly, we multiply the rows by the boxes in each row. The total points us to our first lead.

Solve each problem, then write its letter in every clue box that shows the same number.

Subtraction

The suspect dropped a battery pack. We subtract the leftover power from the starting power to see how long they ran. The difference reveals a secret message.

CLUE 5**Missing addends - the last clue**

We find a weight scale used for packing gear. Some spy tools are missing from the scale. We find the missing number to balance it and get the final clue.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$1 + \underline{\quad} = 11$

$4 + \underline{\quad} = 8$

$9 + \underline{\quad} = 10$

$5 + \underline{\quad} = 10$

$1 + \underline{\quad} = 13$

$6 + \underline{\quad} = 13$

$6 + \underline{\quad} = 9$

$9 + \underline{\quad} = 11$

$2 + \underline{\quad} = 11$

$8 + \underline{\quad} = 14$

$3 + \underline{\quad} = 11$

Step 2 - cross out the sentence with each answer:

1. The villain swaps clothes with a mannequin, then zips down the cable.
2. The villain swaps clothes with a mannequin, then snaps a quick photo.
3. The villain vanishes in a puff of smoke, then snaps a quick photo.
4. The villain zooms over the fence, then flies a small camera.
5. The villain vanishes in a puff of smoke, then cuts the vault lock.
6. The villain sneaks through the dark, then cuts the vault lock.
7. The villain swings across the courtyard, then cuts the vault lock.
8. The villain zooms over the fence, then snaps a quick photo.
9. The villain swings across the courtyard, then snaps a quick photo.
10. The villain sneaks through the dark, then zips down the cable.
11. The villain vanishes in a puff of smoke, then zips down the cable.
12. The villain zooms over the fence, then cuts the vault lock.
