Grade 3 math · Rounding, Bar models, Multiplication, Fractions of a number · Reading level grades 3-4

Detective: _____ **Date:** _____

The legendary Golden Compass has vanished from the main cabin at Whispering Island! Without it, the young adventurers cannot navigate the deep jungle. A rogue explorer has hidden it away. Use your camp skills and solve the clues to find out who took the compass before the sun sets!

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the rogue explorer is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Fractions of a number - the last clue**

We found a map of the island divided into equal areas. The runner crossed a fraction of these zones. Calculate the fraction to find their hideout.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$5/10 \text{ of } 16 = \boxed{}$

$2/3 \text{ of } 3 = \boxed{}$

$1/3 \text{ of } 3 = \boxed{}$

$4/10 \text{ of } 15 = \boxed{}$

$5/10 \text{ of } 10 = \boxed{}$

$1/10 \text{ of } 30 = \boxed{}$

$1/6 \text{ of } 24 = \boxed{}$

$2/6 \text{ of } 36 = \boxed{}$

$9/10 \text{ of } 10 = \boxed{}$

$3/6 \text{ of } 22 = \boxed{}$

$2/8 \text{ of } 40 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain searches the sandy beach with a metal detector, then escapes up the cliff with climbing spikes.
2. The villain swings across the river using a grappling hook, then crosses the swamp using a waterproof map.
3. The villain sneaks through the dark with night vision goggles, then calls for backup on a walkie talkie.
4. The villain searches the sandy beach with a metal detector, then crosses the swamp using a waterproof map.
5. The villain swings across the river using a grappling hook, then calls for backup on a walkie talkie.
6. The villain sneaks through the dark with night vision goggles, then escapes up the cliff with climbing spikes.
7. The villain sneaks through the dark with night vision goggles, then vanishes into the trees with a smoke bomb.
8. The villain searches the sandy beach with a metal detector, then vanishes into the trees with a smoke bomb.
9. The villain scouts the area using a pocket drone, then calls for backup on a walkie talkie.
10. The villain lights up the dark cave with a laser flashlight, then crosses the swamp using a waterproof map.
11. The villain lights up the dark cave with a laser flashlight, then unlocks the secret box with a decoder ring.
12. The villain lights up the dark cave with a laser flashlight, then vanishes into the trees with a smoke bomb.
