

The Whispering Jungle Mystery

Grade 4 math · Addition, Subtraction, Multiplication, Fractions of a number, Division · Reading level grades 3-4

Detective: _____ **Date:** _____

The golden compass of the ancient ruins has gone missing! Someone crept into the main tent last night and replaced it with a painted rock. We need to search the jungle camp, follow the clues, and find the real Artifact Thief before they escape down the river.

1. Solve each math problem. The answer is a number, and the letter beside it is what that number stands for.
2. In the clue boxes, write that letter in every box showing the same number, then read the secret clue.
3. Use each clue to cross suspects off the list. The one suspect left at the end is the culprit!

My answer: the Artifact Thief is _____

Possible suspects

Cross off a row as each clue rules it out. The one left at the end is the culprit.

CLUE 5**Division facts (1-12) - the last clue**

Our team discovered a hidden chest of gold coins. We must divide them equally to keep the expedition fair.

First solve each problem. Then find each answer in the numbered list below and cross that sentence out. One sentence will be left - that is exactly what the villain did!

Step 1 - solve these:

$110 \div 11 = \boxed{}$

$20 \div 10 = \boxed{}$

$7 \div 1 = \boxed{}$

$30 \div 10 = \boxed{}$

$36 \div 6 = \boxed{}$

$72 \div 8 = \boxed{}$

$96 \div 8 = \boxed{}$

$25 \div 5 = \boxed{}$

$96 \div 12 = \boxed{}$

$99 \div 9 = \boxed{}$

$7 \div 7 = \boxed{}$

Step 2 - cross out the sentence with each answer:

1. The villain swung across the muddy river, then stole the glowing crystal.
2. The villain swung across the muddy river, then snatched the golden map.
3. The villain crossed the shaky rope bridge, then stole the glowing crystal.
4. The villain sneaked past the sleeping camp, then lifted the ruby idol.
5. The villain swung across the muddy river, then took the secret diary.
6. The villain dashed through the thick vines, then snatched the golden map.
